

QATAR STARS LEAGUE 17/18

FOOTBALL DEVELOPMENT REPORT - FULL SEASON ANALYSIS

FOREWORD

DELIVERING PERFORMANCE INSIGHT

STATS is once again proud to present the QSL end of season report following the 2017/18 campaign. The data in this document covers the performance of all players and all teams, across all matches, in the Qatar Stars League. As a long-term partner of QSL, STATS shares in the collective vision of making QSL the most entertaining and competitive league in the AFC. It is our belief that the key to achieving that goal is the continued professional development of the players and teams in Qatar and that is built upon the foundation of accurate and insightful performance data and analysis. This report shares some of that insight, including using STATS Playing Styles analysis for the first time. It is a reflection of the QSL's and STATS' commitment to ensuring football players in Qatar have all the information available to them that will help power their professional development, both technically and physically. We hope that you find this report a suitable presentation of the great progress and the hard work being conducted to keep QSL moving forward. It has been a pleasure to once again to support QSL's performance initiatives.

Martin BLAND
STATS

General Manager - Middle East

SUPPORTING QSL FOOTBALL CLUBS

On behalf of Qatar Stars League, I am very delighted to present this technical report and I hope that the information published supports each and every club to enhance their performances in the upcoming seasons.

It is with great enthusiasm that I invite everyone to analyze and study every detail of this valuable Qatar Football document.

Mohammed AHMED ABDULLAH
Qatar Stars League

Executive Director of Competition & Football Development

DEVELOPING THE GAME IN QATAR

Just like in any other invasive sport, match analysis in football is an important aspect for different parties, including players, coaches, and team managers. Being humans, coaches and other officials may not remember all the aspects of a match such as the number of passes completed, the number of shots on target, the number of sprints, the number of goals, among others. The Qatar Stars League professional clubs are utilising computer-based STATS match analysis systems to monitor the performances of every player and to archive all captured data for day-to-day use and future analysis. The coaching staffs of the twelve QSL clubs have the ability to access technical, tactical and physical data of all QSL competitions in order to improve the performances of their players. This season, 132 QNB Stars League matches, 3 Qatar Cup matches, 1 Sheikh Jassim Cup match, 7 Emir Cup matches and 29 AFC Champions League matches were analysed with STATS. It is a great pleasure once again to present the end of season technical report.

Miguel HEITOR
Qatar Stars League
Director of Football Development

GOALS ANALYSIS

QSL teams varied in their approach to scoring goals in the 2017/18 season. Al Duhail were the top scorers in the league this season and 78% (67) of their 86 goals came from open play, a percentage only bettered by Al Markhiya (84%), the lowest scoring team in the competition. In comparison, Al Rayyan led the QSL with 21 goals from dead ball situations, as 39% of their 54 goals came from set plays.

While Al Sadd were the QSL's second-top scoring side in 2017/18, with 64 goals (after own goals were removed from their total), they were still 22 goals behind Al Duhail, as 78% of their goals were also from open play. However, the gap should have been much closer when looking at expected goals. Whereas the Red Knights still led the QSL with 57.9 expected goals, this was just 7.2 expected goals ahead of Al Sadd (50.7 xG).

Note: Goals excluding Al Markhiya vs Al Sadd and Al Markhiya vs Al Gharafa

ATTACKING TACTICS ANALYSIS

Our attacking analysis breaks down the ways the QSL teams have penetrated defences this season. Al Duhail were the top scoring side in the division, so it should be no surprise that they led the league in both final third entries (66.7) and penalty area entries (45.2) per match this season. The STATS Playing Styles analysis showed that they were 75% above the QSL average for build up possessions and 64% above average in sustained threat.

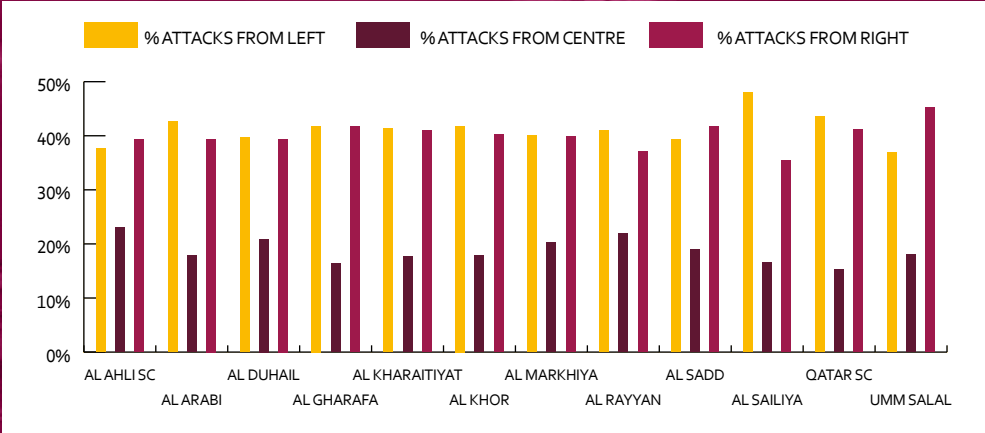

Al Khor averaged 53.5 final third entries per match this season; however, just 49.5% of their entries were successful – the lowest percentage in the QSL. The Knights were also one of the most direct teams in the QSL in 2017/18 (16% above average – joint-second in the competition) as well as 28% below average for build up possessions, the lowest percentage in the league.

ATTACKING TACTICS ANALYSIS

Al Duhail scored a remarkable 46 goals from build up play this season, 20 more than any other club in the competition. The Red Knights were the best side in QSL for build up (+75%) and sustained threat (+64%) possessions, as shown by STATS Playing Styles, as their attacks for their goals came from all areas of the field. Al Sadd were 13% above average for build up possessions (third in the QSL) and 25% above average for sustained threat (second in the QSL), as they ranked second in the QSL with 26 goals from build up play

The lowest scoring teams from build up play were also ranked the lowest for build up according to the STATS Playing Styles analysis. Al Khor scored just six build up play goals and were 28% below average for build up possession, both the lowest in the QSL, closely followed by Umm Salal (seven goals, -24%), Al Ahli SC (seven goals, -23%) and Qatar Sports Club (eight goals, -23%)

DEFENDING STATISTICS

DEFENDING TACTICS ANALYSIS

Al Kharaitiyat conceded 62 goals in 2017/18, 16 more than any other club in the QSL, as they allowed more goals from open play alone (47) than all other clubs conceded in total. Even though six clubs conceded more shot than the Thunders (13.3 per match), their opponents converted a 20.8% of their shots, the highest percentage in the QSL. That produced a difference of 20.2 between their goals conceded (61 excluding own goals) and expected goals conceded (40.8) (although they were also last in the league for expected goals conceded - in fact, the only club above 40 for expected goals conceded).

Four teams made more than 500 tackles over the course of the 2017/18 season, including two of the top five (Al Sadd – 516 tackles, and Umm Salal – 515 tackles), while Al Sailiya (395) were the only club that made fewer than 400 tackles. Both the Wolves (54.0%) and the Peregrines (53.8%) averaged above 50% possession, but they took different approaches to regain the ball, as Al Sailiya were also last in the league with 119 interceptions.

PASSING ANALYSIS

Al Duhail (611.3) were the only club to average more than 600 passes per match in the QSL in 2017/18. They played mainly short (61.9%) and medium (31.8%) passes more than they went long, as only 6.3% of their passes were played long – the second-lowest percentage in the QSL, behind Al Sadd (6.2%).

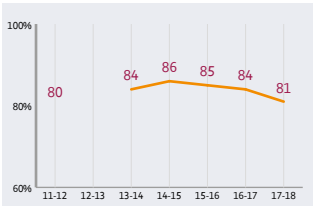

Al Khor (41.8%) and Al Kharaitiyat (41.1%) were the two clubs who statistically attempted to get the ball forward the quickest, as they were the only two clubs with more than 40% of their passes directed forward. Looking at the STATS Playing Styles, these two were also the bottom clubs for maintenance possessions, as Al Khor were 24% below average and the Thunders were 33% below average. Both of these clubs were above average for direct play (Al Khor - +16%, Al Kharaitiyat - +7%).

PASSING EFFICIENCY

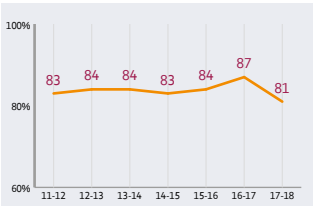

PASS SUCCESS RATES OVER 5 SEASONS

The pass completion rate can give a good indication of a team’s passing ability, with a strong passing team usually achieving high pass success rates. Over the last six seasons in the QSL, Al Sadd and Al Duhail have shown impressive passing data with both teams achieving consistent accuracy rates both this and last season. In comparison, Al Kharaitiyat have arguably shown the most erratic form with highs of 82% and lows of 74%, with a slight improvement to 76% this season. Al Sailiya have shown the biggest improvement from last season (4% increase), as they ranked third for passes in the QSL with an average of 526.1 passes per match.

1ST TIME PASSES

PASSING TACTICS ANALYSIS

A good indicator of a team's passing quality can be measured by looking at the number of times the team plays with a quick tempo. The QSL average percentage for passes with one touch was 22.8% this season, with 80.8% of those passes successful. Al Sailiya led the league with 25.4% of their passes played first time, as the Peregrines also had an above average success rate (83.1%). They were one of four clubs who were above average for fast tempo when looking at the STATS Playing Styles, which analyses possessions in the opposition's half when the player releases the ball to a teammate in less than two seconds or when he dribbles at a high tempo. Al Duhail and Al Rayyan were both 58% above average for fast tempo, followed by Al Sailiya (+31%) and Al Gharafa (+25%).

STATS INSIGHTS

86

The highest number of goals scored this season - seven more than last season despite playing fewer games.

+64%

The Red Knights were 64% above average for sustained threat possessions in the QSL this season, higher than any other club.

37

The number of goal contributions from Youssef MSAKNI. He was one of two players who reached double figures in both goals and assists in 2017/18, alongside Hasan Khalid Haydos (Al Sadd).

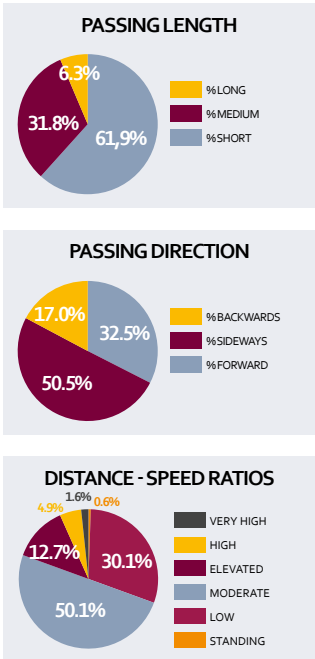

26

Youssef EL ARABI scored 26 goals this season, the highest total since Clemerson de Araújo scored 27 goals for Al Gharafa in the 2007/08 campaign.

STATS INSIGHTS

9

Al Sadd won 9-1 in their final game of the 2017/18 season, the biggest win in the QSL in this campaign.

4

Al Sadd won four games after conceding the opening goal in 2017/18 - no other QSL club won more than twice after conceding first.

1.61

Baghdad BOUNDJAH scored 16 goals (one penalty) in just 840.2 minutes played in the QSL in 2017/18. He averaged 1.61 non-penalty goals per 90 minutes, over 0.50 NPG/90 higher than any other player (minimum 810 minutes played).

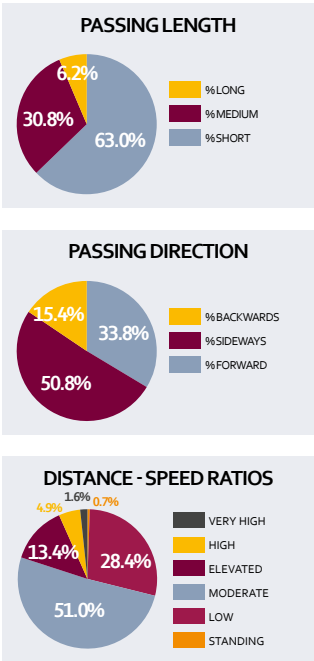

11

Hasan Khalid Haydos had three assists in Al Sadd's final game of the season to take his total to 11 assists, as he became the second player reach double figures in both goals (12) and assists in 2017/18 (after Al Duhail's Youssef Msakni).

STATS INSIGHTS

46%

46% of Al Gharafa's goals from build up play were from central attacks, the highest percentage in the QSL in 2017/18.

1 km

Amro SURAG was the only player to average over 1 km per 90 minutes at high and very high speed in the QSL in 2017/18.

11

Wesley Sneijder led Al Gharafa with 11 goal contributions (7 goals, 4 assists) despite playing just 11 games in the QSL this season.

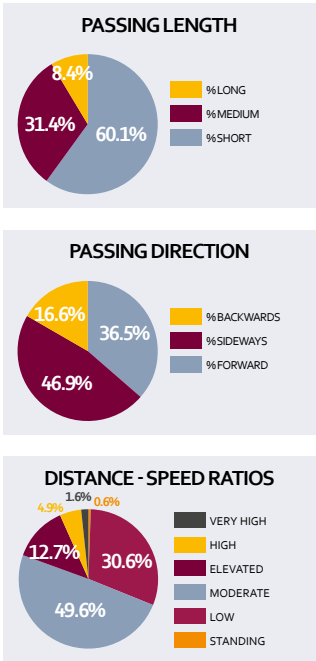

71.1

Khaled ABDELRAOUF was one of just six players who averaged higher than 70 passes per 90 minutes in the QSL in 2017/18.

STATS INSIGHTS

11.5

Al Khor conceded just 11.5 shots per match in 2017/18, only Al Duhail (9.1) had a lower average in the QSL.

24

Al Khor conceded 24 goals from open play in 2017/18, the third-lowest total in the QSL (only trailing the top two clubs).

39.9%

Madson FORMAGINI CARIDADE led Al Khor with 80 shots and 30 shot assists, as he directly contributed to 39.9% of the Knights' 276 shots in 2017/18.

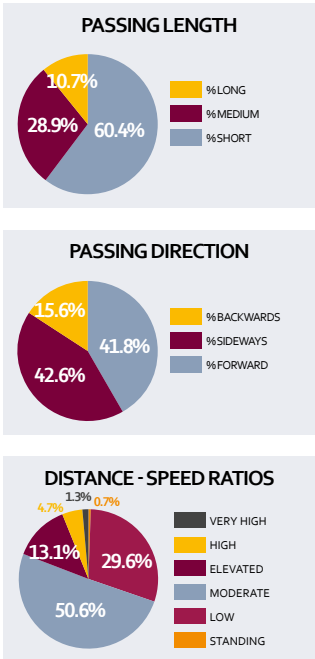

2.8

Soroush RAFIEI averaged 2.8 possession wins in the final third per 90 minutes in 2017/18, the joint-highest average in the QSL (alongside Luiz MARTIN CEARA).
